DETAILED ACTION

The amendment filed 5/6/02 under 37 CFR 1.116 in reply to the final rejection has been considered but is not deemed to place the application in condition for allowance and will not be entered because: the added limitation of 6% non-polyol aerosol generator would not distinguish it from the Gibson et al patent reciting 5% non-polyol aerosol generator. A one percent difference would not result in unexpected results from the Gibson et al patent and would have been rejected as an obvious optimization of a result effective variable.

Glycerol triacetate is a compound known to produce smoke in order to simulate the visual effect of smoke produced by burning tobacco. Hence, it would have been obvious to a person of ordinary skill in the art to have conducted routine experiments to select the proper amount of glycerol triacetate as an obvious optimization of result-effective variable to obtain the desired visual effect of natural tobacco smoke.

Additionally, the amended claim reciting a narrower range of non-polyol aerosol generator amount from creates new combinations with the other depending claims that would require further search and considerations. Finally the added limitation amount of non-polyol aerosol generator places claim 3 in an improper dependent claim for failing to further limit the subject matter of the previous parent claim 1.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Carlos Lopez whose telephone number is (703) 605-1174. The examiner can normally be reached on 8am - 5pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Steven Griffin can be reached on (703) 308-1164. The fax phone numbers for the organization where this application or proceeding is assigned are (703) 305-7718 for regular communications and (703) 305-3599 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-0651.
